**Drinking Water, Food, Energy Nexus
Discourse for Sustainable Development:
Harnessing Climate-Smart Innovation –
Integrating Agribusiness and the Blue
Economy to Unlock Africa–Europe Trade
Opportunities for a Sustainable Future**

DATES:

13TH - 17TH JULY

2026

Sunday - Saturday

VENUES:

The City of Hamburg
(Le Méridien Hotel)

EXECUTIVE POLICY OVERVIEW

The Europe Agribusiness & Blue Economy Summit 2026 is a high-level policy–technology–investment–implementation platform designed to accelerate Nigeria–Europe cooperation across agribusiness transformation, energy transition, climate resilience, and the blue economy.

The Summit moves decisively beyond dialogue by:

- Demonstrating operational European best-practice systems
- Unlocking climate finance and private sector capital
- Supporting bankable, scalable, and investable solutions
- Delivering practical models adaptable at Nigeria’s federal, state, and regional levels.

ALIGNMENT WITH NIGERIA'S STRATEGIC PRIORITIES

The Summit directly supports Nigeria's national objectives in:

- Blue Economy and Blue Bioeconomy development
- Agro-ecosystem transformation and food security
- Water–Energy–Food–Environment (WEFE) Nexus integration
- Ports, logistics, inland waterways, and trade facilitation
- Climate finance, ESG, SDG, and CSR alignment
- Youth employment, innovation, and skills development

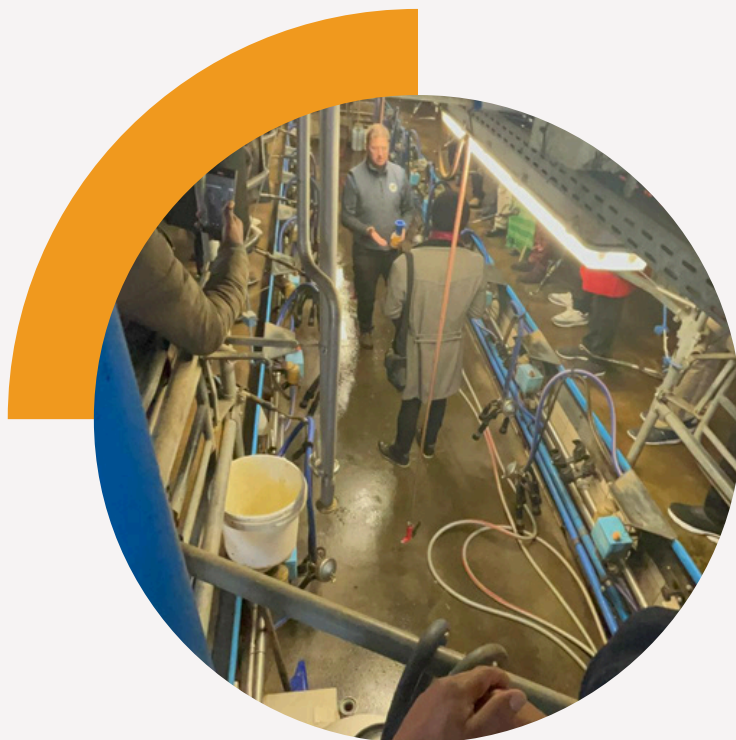

STRATEGIC IMPORTANCE TO THE NIGERIAN GOVERNMENT

Nigeria's participation advances:

- Economic diversification beyond oil dependency
- Food and safe drinking water security
- Renewable and clean energy transition
- Coastal resilience and climate adaptation strategies
- Export competitiveness into EU and UK markets
- Technology transfer and institutional capacity building

PROGRAMME OF ACTIVITIES

DAY 1 – SUNDAY, 12 JULY 2026

Delegates Arrival & Welcome – Hamburg

All Day

- Arrival of Nigerian government and international delegations
- Airport reception, protocol assistance, and transfers
- Hotel check-in

18:00 – 20:00

- Delegates' rest day, private meetings, Hamburg City Centre Sightseeing.

DAY 7 – SATURDAY, 18 JULY 2026

Delegates Departure

- Hotel check-out
- Airport transfers
- Departure from Germany

STRONG, EXPANDED BENEFITS TO NIGERIAN GOVERNMENT PARTICIPANTS

A. Blue Economy, Sea Farming & Blue Bioeconomy

- Sea farming and integrated aquaculture systems
- Seaweed applications for food, fertiliser, biofuel, and biomedicine
- Marine biodiversity protection and blue carbon ecosystems
- Circular economy and marine governance frameworks

Government Value:

Transforms marine assets into export revenue, job creation, climate solutions, and biodiversity protection.

B. Agro-Ecosystem, Ranching & Inland Water Systems

- Climate-smart agriculture and sustainable ranching models
- Irrigation, land–water interaction, and productivity systems
- Agro-processing, storage, and inland waterways transport

Government Value:

Improves food security, reduces land-use conflict, and strengthens rural economies.

C. Water–Energy–Food–Environment (WEFE) Nexus

- Drinking water treatment and distribution technologies
- Renewable energy solutions (wind, bioenergy, marine energy)
- Integrated irrigation, energy, and food security systems

Government Value:

Enables cross-ministerial coordination and cost-effective infrastructure planning.
