OFFICIAL PROGRAMME & AGENDA

SPECIAL INTERNATIONAL INSTITUTIONAL BUSINESS ROUNDTABLE MEETING

THEME:

EXPLORING THE COMMERCIAL VALUE OF ENERGY STORAGE DEVICES: SUPER CAPACITORS APPROACH ON ENERGY EFFICIENCY FOR EDUCATIONAL PURPOSES AND ECONOMIC GROWTH

DATES: 1–2 DECEMBER 2026
VENUE: ILMORA HOLDINGS HEADQUARTERS, LONDON, UNITED KINGDOM.

FACILITATING ORGANISATION:
CATERANDMERGER CONSULT UK

IN STRATEGIC COLLABORATION WITH:
ILMORA HOLDINGS UK

INSTITUTIONAL PARTNERS:

- OXFORD COLLEGE OF EDUCATION, UK.
- LONDON COLLEGE OF MANAGEMENT AND LEADERSHIP EDUCATION, UK.
- OCCUPATIONAL SAFETY AND HEALTH ASSOCIATION (OSHASSOCIATION UK).

SPECIAL ACADEMIC GUEST:
PROFESSOR LAWAL SA'ADU
DEPUTY VICE-CHANCELLOR
FEDERAL UNIVERSITY GUSAU, NIGERIA.

BACKGROUND AND RATIONALE

The Special International Institutional Business Roundtable is a strategic academic and commercial engagement designed to promote international institutional cooperation, knowledge exchange, technology innovation and sustainable economic development.

The meeting will bring together representatives of participating UK institutions, business stakeholders, academic professionals and invited international delegates to examine the emerging commercial and educational opportunities associated with energy storage technologies, particularly supercapacitors and their potential applications in energy efficiency.

The engagement will also provide a platform for exploring institutional partnerships, academic collaboration, research opportunities, technology transfer and capacity development between participating organisations and the Federal University Gusau, Nigeria.

The programme recognises the growing importance of sustainable energy solutions in supporting educational institutions, research infrastructure, industrial development and economic productivity.

OBJECTIVES OF THE ROUNDTABLE

The principal objectives are to:

1. Examine the commercial and technological value of energy storage devices, with particular attention to supercapacitor technology.
2. Explore the potential applications of supercapacitors in energy efficiency and sustainable power solutions for educational institutions.
3. Identify opportunities for academic research, institutional partnerships and international knowledge exchange.
4. Explore possible collaboration between UK educational institutions and the Federal University Gusau.
5. Examine opportunities for technology transfer, innovation, investment and commercial development.
6. Discuss institutional capacity-building programmes, professional education and technical training.
7. Develop a framework for sustained institutional cooperation and future joint initiatives.
